

DOPAS Training workshop 2015

Andra's presentation

Jacques WENDLING (Andra/DRD/EAP)
14 September 2015

All material presented hereafter is under Andra copyright

Its missions : find, implement and ensure safe management solutions for all French radioactive waste in order to protect present and future generations risk that these types of waste may present.

Industrial and Commercial Public Establishment created from the CEA (French Atomic Energy Agency) by the Act of December 30, 1991

Independent from waste producers

Under authority of the ministers in charge of Energy,

Environment and Research

Approximately 635 employees on 4 sites

2/9

The Planning Act of 28 June 2006 on the sustainable management of radioactive materials and wastes establishes the framework for action Andra

- **Design, implement, operate and monitor** radioactive waste disposal facilities
- **Collect** nuclear waste and radioactive objects held by individuals (including hospitals, small industries)
- **Clean up old sites** contaminated by radioactivity
- **Publish an inventory** of radioactive materials and waste present in France
- **Inform the public** about radioactive waste and their management
- **Disseminate** know-how abroad

3/9

Andra's funding in 2014 : 287 M€

- **Contracts with radioactive waste producers** to ensure support to the storage of their waste: approx. € 63 million for Ci2A and € 6 million for monitoring the CSM
- **"Research tax"** collected by the Nuclear Safety Authority (ASN) from the basic nuclear installations (BNI): approx. € 98 million
- **Design Fund**, via a special contribution to finance the industrial design studies and preliminary work for Cigéo: € 103 million
- **Specific contract** with the four producers involved in the FAVLproject: 8 M €
- **Grant from the state** for its general interest missions (National Inventory, collecting radioactive objects, remediation of polluted sites under the responsibility of defaulting): approx. € 3.5 million
- **Contracts for studies** and advisory services (France and international, for states, institutions, producers, industry): € 5.5 million
