

# Group exercise (no 5) on Risk Management

- Identifying and prioritizing risks for full-scale experiments
  - G1: DOMPLU
  - G2: POPLU
- Instructions:
  - Practice step 2 “Identification” and Step 3 “Assessment”
  - **Focus on risks during installation of the full-scale test**
  - No need to identify “administrative risks” such as purchasing, contracting or lack of resources.
  - Check DOMPLU and POPLU presentations for information about project objectives and technical installations.
